Professional Summary:

Innovative iOS Developer with over 4 years of experience specializing in Swift and SwiftUI. Demonstrated expertise in developing and launching applications that integrate AI, AR, and user-centric design. ([App Store](#))

Professional Experience:

iOS Developer

REEF Technologies, Toronto, ON | Oct 2022 – June 2025

- Designed and developed robust cloud-based POS systems for the restaurant industry utilizing Swift, SwiftUI, RESTful APIs, and JSON integrations.
- Implemented monitoring tools such as Crashlytics and Sentry, reducing app crashes by 30%.
- Automated CI/CD pipelines through GitHub Actions, reducing deployment times by 25% and enhancing overall application stability.

iOS Developer (Internship)

ÀLA.HAUSSE, Toronto, ON | May 2022 – Aug 2022

- Engineered intuitive user interfaces using SwiftUI and UIKit, resulting in a 15% improvement in user engagement metrics.
- Architected modular codebases, reducing overall development timelines by approximately 30%.
- Improved app performance by integrating Combine, resulting in a 25% decrease in loading times.

Software Developer

WebcodeZ Infoway, India | July 2019 – Jan 2021

- Developed iOS applications compliant with industry standards using Swift, SwiftUI, Objective-C, and WKWebView.
 - Engaged in agile team environments, promoting best coding practices and improving app performance through rigorous testing and debugging.
-

Personal Portfolio: ([App Store](#)) ([Website](#))

- **It's Here:** An AR-based application utilizing LiDAR technology to assist users in locating items efficiently. ([App Store](#)) ([Website](#))

- **Peekaboo:** A photo layers editing app for doodling and captioning with custom text, effects, and AI-generated backgrounds. Enables expressive image creation with gesture controls and smart layering. ([App Store](#))
- **Subly:** An offline AI-powered subtitle studio for private, high-quality video transcription, translation, and styling. Offers full creative control with precise editing, custom designs, and pro-grade exports all on-device. ([App Store](#))
- **Nucleus Chat:** An offline AI-powered chatbot using Apple's Foundation Models Framework which can access personal data as calendar, reminders, health data, contacts etc privately and with zero latency ([Test Flight](#))
- **Keycal:** A full calculator and unit converter built into your iOS keyboard for instant calculations anywhere. Works seamlessly across apps with themes, haptics, and a fast, privacy-first experience. ([App Store](#))
- **Imagine Tales:** A storytelling app for children, featuring AI-generated illustrations and a secure, interactive platform. ([App Store](#))
- **Noted:** A minimalist note-taking app emphasizing privacy and seamless synchronization across devices. ([App Store](#))

Education:

Postgraduate in Information Technology

Humber College, Toronto, ON, Canada (2021 – 2022)

Bachelor's Degree in Computer Engineering

Gujarat Technological University, Ahmedabad, India (2016 – 2020)

Technical Skills:

- **Programming Languages:** Swift, Objective-C, SwiftUI, UIKit, Metal
- **Tools & Frameworks:** Xcode, Git, GitHub Actions, Crashlytics, Sentry, XCTest
- **AI & ML:** On-device AI, Core ML, Whisper, OpenAI, Foundation Models framework, Apple Intelligence
- **Cloud & APIs:** RESTful APIs, CloudKit, Firebase, JSON, RevenueCat, Azure
- **Additional Skills:** ARKit, Core Data, Combine, Core Animation, WKWebView, AVFoundation, Agile Development, CI/CD
